

BUSINESS INDIA'S BEST B-SCHOOLS SURVEY 2010

Business India is proud to bring to you yet another edition of our prestigious annual survey of best B-Schools. The timing of the survey is apt when India Inc is recovering rapidly its lost ground in the aftermath of the global financial crisis. There are signs of strong revival in every segment of business raising the placement hopes of the MBA students. The just concluded placement season already recorded some of the best salaries and good career offers from the Indian and international companies.

The first and only online survey to Rank and Rate Indian B-Schools is now open for answering at the www.bibschooolsurvey.com. The B-Schools are encouraged to register at the site, receive their password and use the time period indicated to submit their survey questionnaire. The password would ensure that the school would be able to submit the templates related to the survey at their own pace. Our helpful team of volunteers would be at hand throughout the survey process to answer your queries both by phone and e-mail.

Survey process: The entire questionnaire has been uploaded in 12 independent parts. Each of these, you could visit at your pace and submit your response. The response will be saved as you enter and you can revisit your responses any number of times until you exercise your final submit option that would show up once you have successfully submitted all your templates. At this stage you would also get the chance to see your entire filled out questionnaire to make a last minute correction before submitting. Once submitted the questionnaire cannot be retrieved without our help. You could mail us at atraman@gmail.com for any doubts, queries and assistance anytime during the survey process.

Stakeholder survey: We have also been conducting a stakeholder survey covering the students, faculty and the alumni for the past three years to get a right perspective and weightage for final ranking of the B-Schools. The stake holder survey is broken down to three parts and the templates are available online at our website. Please look up the "FAQ" sections in the website for clarifications.

Important information: "Please note that B-Schools that have completed three years of existence and passed out at least two batches of MBA or equivalent course students alone would be eligible for participation in the B-Schools Survey 2010."

Disclaimer: Please note that the onus of responsibility of providing authentic and reliable data rests with the B-Schools and not withstanding any external validation Business India or its associates may carry out to verify the facts being provided, the final responsibility of the truthfulness and authenticity of the data provided rests with the B-Schools providing the information. Business India or any of their associates would not be held responsible for the quality of data or the consequences of using the same for rating or ranking of any B-School.

The survey will be open for participation until July 31 2010
